A Message from the Chairman of the Board

This past year has been one of continued growth and hope for Cardinal Cushing Centers. Fourteen students crossed the stage and graduated from Cushing this spring. ACHIEVE, a day and residential summer-transition program for young adults, enjoyed a successful second season. Admissions saw an increase in their numbers for the first time in recent years this fall. Over 60 adults are employed in community jobs, thanks to the South Shore Industries program.

Cushing Centers continues to provide important services for students and adults with complex needs on a daily basis, helping them to live full and meaningful lives. As Chairman of the Board, I would like to personally thank you for the support you have given over the past year to make this possible.

In these challenging economic times, Cushing Centers has also faced some roadblocks. State funding for individuals with developmental disabilities continues to drop, though the number of students and adults who need our help and support has not decreased along with the pool of available money.

It is of vital importance that we, a network of Cushing supporters, work together to sustain this great community for future generations. Now is the time to be innovative and creative. As the world is growing smaller with advances in technology, we have to ensure that Cardinal Cushing Centers stands out among the crowd as the number-one intergenerational village for individuals with complex needs.

Please continue to join us in advocating for more possibilities, opportunities, and hope for the many people who turn to this organization for a better today and a more fulfilling tomorrow. We appreciate your support!

John Boucher
President & CEO
South Shore Savings Bank
A Message from the President & CEO

This past year has taken me away from campus on several occasions to promote the work of Cardinal Cushing Centers. I have met many wonderful and interesting people along the way. Nothing gives me greater joy than to recount proudly our organization’s growth and the positive impact we have on the students and adults we serve, as well as on the surrounding community.

I’d like to take this opportunity to thank the Cushing Centers staff for the hard work and quality care that they provide to our clients and their families on a daily basis. Cushing would not be where we are today without their dedication.

I’d also like to thank you all, the community of Cushing supporters, for your continued friendship and generosity. As we look back on the past year, be proud, for your support has lead to many meaningful experiences for individuals with disabilities. As we look forward to 2011, be inspired by the possibilities that lie ahead for Cardinal Cushing Centers. I am inspired every day that I am on campus — by the adults with disabilities who enthusiastically show up to work each day, by our students enrolled in community-college classes, and by the teachers and specialists who find new ways of communicating important information to each child.

Please continue to support the great and inspiring work of Cardinal Cushing Centers. I look forward to another great year together!

Jo Ann Simons
President & CEO
Cardinal Cushing Centers, Inc.
CARDINAL CUSHING CENTERS IS A PLACE WHERE PEOPLE OF ALL AGES AND ABILITIES FIND POSSIBILITY, OPPORTUNITY, AND HOPE.

Live. Learn. At Cardinal Cushing Centers, our therapists integrate themselves into the classroom, as well as vocational, recreational and residential environments. They also develop activities that address therapeutic needs within real-life context. What better way to teach cooking than in a real kitchen, making dinner for a residential unit? What better way to address using language strategies than waiting on customers? What better way to foster active movement than in a water aerobics class led by our physical therapist?

POSSIBILITY

I don’t think of myself working for an organization, but rather in a community where at every level, people go above and beyond.

*Tara Jordan, Adult Residential*

You have some amazing direct-care staff in the house units that deserve a gold medal for all that they accomplish. *Pam Domos, Parent*
Work. Play. “I like working off campus at Briteway Car Wash because it’s a friendly environment where I can learn and meet new people. I like the work that I do and am proud that I am now given additional responsibilities and am able to help train new employees.” **Brandon G.**

Brandon has been a student at Cardinal Cushing Centers for five years and will be graduating in September 2011. He is a residential student in one of the transitional units on campus, Springtime Hall. Brandon enjoys listening to music, watching movies, and anything to do with cars! Briteway Car Wash is Brandon’s first job off campus. His dream job is to be an auto mechanic.

I began researching private schools when Jessica turned 10. Two years and 40 different school visits later, she enrolled at Cardinal Cushing Centers. Today, my daughter is a different person. Instead of being seen as a potential person, at Cardinal Cushing, she’s a person with potential. **Jeanne Doherty, Parent**

I have been a manager at the Ninety Nine’s Weymouth location for almost two years. Each morning I come to work, I look forward to seeing my AM cleaning crew. They brighten everyone’s day. They pay close attention to detail and take a lot of pride in their work. They love showing up to work every day. Not only does the job get done, but it also puts a smile on their faces and ours. **Sean Casey, Service Manager, Ninety Nine Restaurant & Pub**
In 1947, Cardinal Cushing invited the Sisters of Saint Francis of Assisi living in Milwaukee, Wisconsin to assist in opening a school for “exceptional children” — children with disabilities. Upon arrival in Hanover, the five sisters who made the journey were faced with the task of preparing the land and buildings for occupancy. The sisters cleaned, tilled, painted, and toiled to welcome the first 35 students. Their hard work under the direction of Cardinal Cushing paved the way for the sprawling campus and increased capacity we experience today at Cardinal Cushing Centers, Inc. When St. Coletta by the Sea opened its doors in Hanover, it was the first school of its kind in the entire Northeast. Though our buildings and stationery no longer carry the name St. Coletta by the Sea, the mission Cardinal Cushing began many years ago to support individuals with developmental disabilities, is alive and well. Ten years later in 1957, Cushing opened the Braintree St. Coletta Day School.

ALL AGES. ALL ABILITIES. ALL TOGETHER.

I think the staff is really first rate and caring...I came away very impressed with Cardinal Cushing and the effect it has had on Henry. I feel very fortunate that Henry is at Cardinal Cushing. It is a very special place. Robert Buxton, Parent
