## From the President and the Board Chair

It is our pleasure to present you with this year's annual report for the Cardinal Cushing Centers. It has been a year of possibility, opportunity and hope, one of growth and advancement.

As we reflect on the accomplishments over the past fiscal year that have helped us maintain our position as one of the premiere service

providers for individuals with intellectual disabilities and their families, we also pay tribute to our beginnings. Over 65 years ago, armed with the courage, strength and resilience of the Sisters of St. Francis of Assisi, Cardinal Richard Cushing laid the groundwork for a residential school for his special children, children with intellectual disabilities. While our campus and programs have evolved since 1947, our core mission to ensure that all people with intellectual disabilities are valued, contributing members of society remains the same. Every day we challenge the individuals we support, their families and our staff to set the bar just a little higher than we think is possible.

Over the past fiscal year we implemented a five-day a week after school enrichment program for our students. We achieved financial stabilization by controlling our costs, applying for rate increases in our programs and by expanding business opportunities, adding new programs and services. This has allowed us to upgrade our computer systems and build our capital needs list. Adult Services moved into newly renovated homes on our Hanover campus, allowing 10 individuals larger living space that will support them through their elder years. We have revamped our onboarding procedures for new employees, creating a more efficient and streamlined process. We have also streamlined the way we document and record student and adult client health and medical record information via our new electronic documentation system, Therap.

With the support and generosity of our faithful donors we were able to renovate kitchens and bathrooms in three of our student homes to make daily living more pleasant, install a new scoreboard, and provide brand new mattresses to all of our residential students. We have made progress on early action components of our campus master plan and we look forward to the installation of new campus signage, sidewalks and improved landscaping this spring. Our vision to build an intergenerational village is one step closer to becoming a reality.

With your continued support, we will continue our good work on behalf of individuals with intellectual disabilities and their families for many years to come.

Sincerely,

Jo Ann Simons  
President & CEO

# planned giving

Through the generous support of our donors, Cardinal Cushing Centers is growing its Planned Giving program so we can continue our unwavering dedication to our mission: to ensure that individuals with intellectual disabilities age 6 to over 65 have opportunities to learn, to work, to grow and to dream. Through the Planned Giving program, we are building an endowment and creating a stable funding source for all of our future needs.

Donors choosing to partner with us for the future have the option to name Cardinal Cushing Centers as a beneficiary of their estate by designating a gift of a specific dollar amount, a percentage of the overall estate, or the residue after all specific gifts have been made. Other planned giving options include naming Cardinal Cushing Centers as a beneficiary of a retirement account or life insurance policy.

For more information, please contact Jenna Gomes, Director of Planned Giving, at [jgomes@cushingcenters.org](mailto:jgomes@cushingcenters.org) or (781) 829-1223.

Hadley, Rita, Phil and Traves Harris.

For Phil and Rita Harris, the decision to name Cardinal Cushing Centers as a beneficiary of their estate was an easy one. Their son Traves, 32, enrolled at Cushing as a student at age 16 and has since transitioned to the adult residential program. "Cardinal Cushing Centers is his home, where he'll grow old," said Rita. "Obviously our interest starts with Traves, but it grows from there. We want the organization to thrive for future generations." "We would do everything possible to build the financial security of this center," said Phil. "We're so thankful and so passionate about the program and the wonderful job that everyone does here, I get choked up just thinking about it."
