

Major Gifts

Opportunities to have a major impact at Cardinal Cushing Centers

Residential Needs

Student Residential Home Updates

\$500,000 each (4)

The time has come for many of Cushing's student residences to be renovated – including kitchen and bath remodels, new appliances, updated technology, accessible doors and baths, exterior and interior work.

Outdoor Decking at Residential Homes

\$10,000 each (2) and \$15,000

Provide Cushing residential homes with outdoor decks and / or front porches that maximize living space and provide a relaxing space to eat meals, tend planters of flowers and vegetables, and get together with other homes.

Adult Services Resident Offices

\$10,000 each (2)

Two adult homes need office renovations, to update spaces where the valued staff can do paperwork, maintain records, and provide essential privacy for meetings and phone calls.

IT

Cushing IT Network Overhaul

\$500,000

Cushing's IT Network is the behind-the-scenes heartbeat of the organization. Installing an up-to-date network system and replacing outdated devices will help make all departments run more efficiently, reduce costly redundancies, and better utilize staff hours.

Security Camera Installation

\$280,000

Security cameras would enhance the security and safety of

Cushing's participants, buildings, grounds and residences in Hanover, Braintree and across the South Shore.

Cushing Server Replacements

\$170,000

As Cushing grows, and information becomes primarily digital, new servers would aid in the accurate storing and retrieval of org-wide data, and make the network run at maximum capacity.

Walkie Talkie Communication Upgrade

\$60,000

Walkie talkies are portable, durable, and ensure clear and immediate communication. Routine maintenance and upgrades to walkie talkies are key to Cushing's ability to address every day incidents, in real time.

Health Center

Health Center Renovations

\$150,000

Cushing's current healthcare facility has been outgrown, and needs to be moved to a larger and centrally located spot on campus – to best serve our incredible nursing staff and over 500 participants.

Portiuncula Chapel

Iconic Portiuncula Chapel

\$85,000

Cushing's iconic chapel and resting place for Cardinal Richard Cushing is in need of repair – including stair modifications, weatherproofing the stonework to resist deterioration, an inclusive paved walkway around the Stations of the Cross path, and upgraded electrical needs.

Hanover Education/School Program

Learning Devices for Every Student

\$70,000

Updated tablets will allow each student to better engage with our education curriculum and also assist with communication needs.

Hanover School Hallways and Stairwells

\$50,000

Help Cushing with the final push to update the hallways and stairwells of the Leonard Florence Education Center – replacing outdated flooring and walls, and giving it a fresh coat of paint!

Hanover Classrooms

\$30,000 each (3)

Since 1947, the soul of Cushing has been in the classrooms of the Leonard Florence Building – which need added storage, new technology, and updated flooring, paint and furniture.

Hanover Campus Parking & Walkway Improvements

\$25,000

With hundreds of school vans, buses, staff and customers driving in and out of Cushing's Hanover neighborhood each day, updated parking options and improved walkways would make the neighborhood more accessible, safe, and alleviate traffic congestion.

Gymnasium Updates to Promote Healthy Living

\$5,000 - \$110,000

The gymnasium, which is used for not just essential exercise but also for many events, shows & celebrations, currently needs an upgraded heating system (\$25,000), upgrades to the flooring (\$75,000), and zip line modifications and upgrades (\$5,000 - \$10,000).

Barrier Pylons for Marketplace Shop Safety

\$15,000

Safety pylons ensure that the front of the MarketPlace building becomes protected from any accidental car traffic – protecting Cushing's staff, customers and participants.

Cushing MarketPlace

Greenhouse and Garden Shop Heating

\$10,000

Cushing's Greenhouse and Garden Shop program has blossomed, and is now operating year round – requiring an adequate heating system for the colder months.
